"

Success in business is not about luck, it's about smart systems and consistent execution

"

Achievements

- **Installed 300+ Projects Across India**
- **Patent Holder – Early Detection Technology for Mushroom Fungal Infection**
- **Awarded Best Cold Storage (Gold Medal – North Region) by Bluestar**
- **Trusted by Farmers, Entrepreneurs & Agri Businesses**

Our Mission

To empower farmers and entrepreneurs with advanced, reliable, and affordable farming technologies, helping them build profitable and sustainable agri-businesses. We aim to revolutionize the mushroom industry with innovation, quality, and trust.

Why Choose Us?

- 300+ Successful Mushroom & Cold Storage Projects Installed
- Advanced Climate Control Technology (Temp + Humidity Automation)
- Patent Technology for Early Detection of Mushroom Fungal Infection
- High Yield & Energy Efficient Systems
- End-to-End Support (Setup to Production)
- Expert Consultation & Training

About Us

Awotech is a leading provider of advanced mushroom growing chambers, cold storage solutions, and agri-tech infrastructure in India.

We specialize in designing and installing high-performance, climate-controlled systems that help farmers and entrepreneurs achieve maximum yield with minimum risk.

With innovation at our core, Awotech brings modern technology + practical farming expertise together.

Services

- Mushroom Growing Chamber Setup (Shiitake, Button, Oyster)
- Cold Room & Cold Storage Installation
- Customized Turnkey Farming Projects
- Automation Systems (Temperature, Humidity, Ventilation)
- Farm Design & Layout Planning
- Maintenance & After-Sales Support
- Subsidy Guidance & Project Consultation
